The Pushbutton Unit is operated by 2 x 3volt Push Button Unit and battery condition. (Range depends upon location, temperature as a standard ‘Westminster’ style chime.

The Recordable Chime Function

These units are completely self-contained and no wiring is required. The unit will also operate as a standard Westminster style chime.

Chime Unit

The Chime Unit is powered by 2 x C size batteries (not included). Alkaline batteries are recommended for longer operating life, up to 2 years. Do not use rechargeable batteries, do not mix old and new batteries or different types.

To Install Batteries

1. Remove Battery Cover from rear of unit by sliding it towards the bottom of unit.
2. Insert 2 x C size batteries into the battery compartment, observing the correct polarity as shown on unit.
3. Replace battery compartment cover.

Installation

Chime Unit

The ‘keyhole’ shaped slot on rear of unit (above battery compartment), seen in fig 2 will enable the Chime Unit to be easily mounted to a flat surface. ‘Keyhole’ slot enables unit to be easily removed from mounting position for replacement of batteries or relocation.

1. Drill appropriately sized hole and insert wall plug if required.
2. Fit screw provided, ensuring that there is a gap of approx. 3mm between mounting surface and head of screw to enable attachment of unit.
3. Attach Chime Unit by sliding ‘keyhole’ shaped slot over screw.

Alternatively unit can be left un-mounted, in which case it can also be used as a portable paging device.

Push Button Unit

The Push button unit has two mounting holes on rear plate of unit.

1. Remove rear plate of unit (see battery installation).
2. Using the back plate or the Push Button unit as a guide, mark the position of holes onto mounting surface.
3. Drill appropriately sized holes and insert wall plugs if required.
4. Secure the back plate of Push Button unit to mounting unit (see fig 5).
5. Clip Push Button unit to back plate. Alternatively the Push Button unit can be attached to smooth mounting surfaces such as painted wood, glass metal and plastic using Self-Adhesive Pad (supplied).

IMPORTANT

Do not mount the Push button unit on metal or near metal door frame, security door, or in close proximity to any metal door furniture. The range of the unit may be substantially reduced.

Trouble Shooting & User Hints

1. The operation and range of your Remote Control Door Chime depends on location, temperature and battery condition.
2. Try different locations in your home, ideally 1 metre from floor. Move Chime Unit closer to Push Button Unit to improve operation.
3. Do not expose either unit to rain or immersion in water.
4. Avoid locations where the Push Button unit is exposed to direct summer sunlight.
5. Do not leave exhausted batteries in Door Chime or Push Button Unit.
6. Clean only with a damp cloth and mild detergent. Do not use solvents.

Security

When you are away from home for long periods you may wish to leave your Chime Unit with one of your neighbours that they can monitor callers during your absence.

Order Guarantee* Arlec guarantees this product against defects of materials and workmanship for a period of 12 months from the date of purchase provided that the product is used in accordance with Arlec’s recommendations and within such voltage and current limits as are specified by Arlec in relation to the product. Arlec will at its own option make good, replace with the same or similar product, or provide credit for any product manufactured or supplied by it, which proves to be defective within the limits set out above provided that no repairs, alterations or modifications to the product have been undertaken or attempted, other than by the company or its authorised agents. Should the purchaser wish to make a claim under the guarantee, the product should be returned prepaid to the place of purchase. This guarantee is in addition to and does not take away from any rights available to the customer under the Trade Practices Act and the State consumer protection legislation.

Proof of Purchase

Please retain your purchase receipt for all warranty claims.

* The ownership frequency of the unit must be not exceeded the person from who is provided by the related government authority.
